# How Much Does it Cost?

- The State of Michigan is currently paying a college or university \$600 per student per class.
- The \$600 per student per class is based on the state average per pupil allotment of \$7209 and may be subject to change in the future.
- The State of Michigan will reimburse for up to 30 credits (approximately 10 college classes depending on the number of credits per college class).

# Different Colleges Have Different Costs

UM Flint typically costs \$359 a credit hour but reduces rate for dual enrolled students to \$273 per credit hour.

-There is a \$107 student activity fee, but that includes use of facilities

-A three credit class would cost \$926, minus the \$600 allotment from the State. Total cost \$326 per class

# College Costs Continued

- Kettering University is normally \$1132 per credit. Which equates to \$4528 per class for a four credit class.
- Kettering will offer a class (regardless of credits) to Powers students for \$1200 which equals a \$600 out of pocket expense.

# College Costs Continued

- Mott Community College tuition per 3 credit class is \$351.69 + \$137.39 in fees equals a total of \$489.08
- The difference between \$600 allotment and the \$489.08 (\$110.92) can be used for books
